Cogstate announces European approval for Cognigram

The cognitive science company, Cogstate Ltd (ASX:CGS), has announced that its Healthcare Division has received CE Mark approval for its Cognigram™ digital cognitive assessment system.

“Cogstate Healthcare is excited about this significant regulatory milestone and we look forward to joining the fight against brain health challenges in European markets,” said Frank Cheng, President of Cogstate Healthcare.

The *Cognigram* system is a digital cognitive assessment tool with self-administered assessment that can be completed both in-clinic and at-home. The *Cognigram* system is being used to support brain health management for the elderly population, for cognitive monitoring related to mild cognitive impairment as part of the dementia disease process, as well as cognitive dysfunction and delirium caused by geriatric surgery and other therapeutic interventions. For more than ten years, Cogstate Healthcare has also provided concussion testing technologies to numerous sports organizations around the world, including professional sports leagues and teams, universities and colleges, medical centers and physician practices, and high schools.

Prior to its CE Mark approval, the *Cognigram* system has gained marketing authorization in key markets including U.S., Canada and Australia.
